

ALOHA MARINE LINES

Serving Customers with Aloha for more than 25 years

Reliable. Cost-effective. Dependable Customer Service.

Aloha Marine Lines provides reliable scheduled shipping service to Hawaii with bi-weekly sailings between Seattle and Honolulu.

For more than 25 years, Aloha Marine Lines' fleet of barges have safely transported break-bulk and containerized cargo destined for communities in Hawaii, giving customers an economical alternative to steamship service. We understand the importance of dependable transportation services to and from the islands. You can depend on us to move everything from construction supplies and building materials to heavy machinery and industrial chemicals.

Aloha Marine Lines is the Hawaii service of Alaska Marine Lines, part of the Lynden family of companies. Lynden's combined capabilities include multi-modal transportation and logistics via air, sea and land. Through Lynden International, a sister company, we can offer ocean and air transportation options to and from the islands. Hawaii customers can use a combination of transportation modes and only pay for the speed they need.

Dynamic Routing is unique service offered to Aloha Marine Lines customers. Using a combination of transportation modes – barge, truck, ships, rail or aircraft – cargo can be transported to balance speed and cost when shipping to different locations. You only pay for the speed you need. Slow down shipments or speed them up to arrive just when you need them in the supply or retail chain.

Shipping Solutions

- **Reliable, cost-effective** bi-weekly barge service to the Hawaiian Islands with connections to neighbor islands. The neighboring islands of Kauai, Maui, Hawaii, Molokai and Lanai are served via connecting inter-island barge.
- **From container cargo to oversized machinery**, we specialize in moving diverse types of freight and heavy cargo that can be expensive to transport by steamship.
- **Consolidation service** can be provided for customers with materials arriving from multiple suppliers. Our 40-door, 40,000-square-foot warehouse allows us to consolidate and load containerized freight quickly and efficiently.
- **Break bulk and container** cargo moves smoothly through our 70-acre intermodal terminal in Seattle, one of the largest cargo terminals on the West Coast. We can handle cargo arriving by rail, truck, or water. Unlike other container carriers, our terminal gives us the ability to load customers' cargo to containers or flat-racks at the vessel loading facility.
- **Whatever you're moving, we have the equipment to get it there.** Our extensive container fleet includes 20', 24', 40', and 53' Standard, High-Cube, and Ultra-Cube 102"-wide to fit just about anything you need shipped.
- **Aloha Marine Lines' knowledgeable customer service** representatives are available locally or toll-free on the mainland to assist with pricing, booking or other information. We are known for our courteous and proactive customer service.
- **Our free online tracking and tracing service** allows you to run customized reports, download scanned documents and stay on top of your freight's journey from departure to arrival.
- **Connections to the Mainland and Alaska**, we offer port-to-port or port-to-door service from Seattle, or we can arrange door-to-door shipments from anywhere on the mainland. In addition, we can offer connections to Alaska through our parent company, Alaska Marine Lines.

Fun Fact

When the Harvard-Smithsonian Astrophysical Observatory needed to ship large radio telescope components to Mauna Kea on the Big Island of Hawaii, they chose Aloha Marine Lines. We provided smooth sailing for the delicate oversized equipment.
