

INDUSTRY SOLUTIONS:

**Canada and the
United States :
more than a
border
crossing!**

Together Lynden Canada and Lynden International help you save time and money by servicing companies shipping to and/or from each country. Saving you time with services that include less-than-truckload (LTL) and full-truckload (FTL), reducing “hub” transfers to allow deliveries 2-3 days faster than most common carriers. Saving you money using consolidated invoices for freight, brokerage, duties and taxes. Products can be consolidated for bulk transportation and clearance. One customs invoice for multiple packages, then deconsolidated for end delivery in Canada.

Within Canada, we can support your entire supply chain with warehousing and distribution, raw materials handling or customize a return program for your products.

Belonging to the Lynden family of companies, we share the same quality-driven philosophy, technology and capabilities ensuring smooth processes and information flow. We’ve build our reputation for outstanding service on flexibility and dedication to customer satisfaction.

With over 20 years of experience in Canada, Lynden has a proven track record to give you confidence and assurance that your entire supply chain is in good hands... connecting your suppliers and customers.
