***Dynamic Routingsm: Alberta, Newfoundland, Alaska, Texas
and Worldwide... Only Pay for the Speed You Need***

LYNDEN
The Lynden Family of Companies

Transportation Management, Customs Brokerage, Warehouse, Distribution **to, from, and within Canada**

Transportation Management

Lynden's Dynamic Routingsm service takes advantage of multiple modes to develop customized solutions to fit your particular needs. From less-than-truckload to full-truckload, ocean or air cargo service, charters or consolidation programs, we can move your shipments around the world while keeping track of it every step of the way.

Customs Brokerage Services

We utilize technology to speed up transborder processing, including Pre Arrival Release System (PARS), online tracking, and the flexibility of Electronic Data Interchange (EDI) solutions. In addition, Lynden simplifies procedures to ensure customs compliance and we can provide you with consolidated invoicing along with other Lynden Services.

Warehouse and Distribution

Lynden provides you with real time online inventory visibility for all facilities including inventory, shipping and receiving. We also provide online customized reports that you may print or download in a variety of formats including Excel and PDF.

With shipping costs on the rise it only makes sense to match your time requirements to the mode. With Lynden's exclusive Dynamic Routingsm service, we make it easy to change routing between modes to meet your delivery requirements into and out of Canada's oil and gas region and locations around the world.

Call a Lynden professional and let us design a Dynamic Routingsm plan to meet your supply chain needs.
