

LYNDEN INTERNATIONAL

Lynden Air Freight, Inc.

Dynamic Routing – Only pay for the speed you need!

LYNDEN
The Lynden Family of Companies

Wherever you ship around the world, Dynamic RoutingSM lets you match mode to delivery requirements, allowing you to manage your costs and supply chain.

Balancing Speed and Cost

Changes in your supply chain affect costs and schedules. Lynden offers a variety of routing options and mode combinations to minimize the impact on your business.

Our goal is to work with you to deliver shipping options to optimize your supply chain and, within budget.

Customized Solutions

Inventory running low? We can change from ground to air. When costs are running high, we can change from air to ocean.

Additional solutions to fully complement your supply chain and logistics management requirements include:

- Customs Brokerage
- Warehousing
- Distribution
- Inventory Management
- Reverse Logistics

Enhanced Visibility

Dynamic Routing includes Lynden's free online EZ Commerce system for tracking and tracing your shipments, so you can keep an eye on the supply chain at all times.

Highlights of Dynamic Routing

- Full-service logistics capabilities and customs brokerage
