<p>SPECIAL NOTES</p> <ul style="list-style-type: none"> • Maximum Gross Capacity of the equipment may exceed lifting capacity of 92,000#. In those cases, Payload plus Tare must be below 92,000#. • All loads, especially containers 40' or over must have the weight evenly distributed over the entire length of the container. • All loads must not exceed legal road limits when moved over public roads. Costs incurred due to overloading is to the account of the cargo. The weights provided above defined as: -Gross-Maximum; cargo or payload weight plus the tare weight of the container. • Estimated maximums may vary by state. • The list above illustrates the most common equipment types in our fleet, some variations may exist. <p>* Posts on four corners reduce deck by 26" in width and 24" in length on 20'. ** Posts on four corners reduce deck by 22" in width and 22" in length on 24'. *** Posts on four corners reduce deck by 12" in width and 12" in length on 40'. 40' PPF deck height is 16 1/2".</p>
