Notice of Late Arrival - Southeast Alaska Voyage S7021

Dear valued customers:

Please be advised the AML Voyage S7021 has encountered severe winter storm conditions and has been delayed. With seas exceeding fourteen feet, 60 knot winds, and freezing spray conditions, we have opted to safely wait out the storm until conditions improve.

We anticipate arriving Juneau late Monday evening. However, because of the volatility of the weather conditions, this is subject to change; we will advise you of any developments with an additional notice.

For Sitka, we will combine S7021 cargo with Northbound Voyage S7022. Estimated cargo availability in Sitka will be Thursday, January 12th.

We recognize the inconvenience this may create, and appreciate your patience and continued support as we deal with these weather issues. Please contact our local service center or your sales representative with specific questions or concerns.

Sincerely,

Alaska Marine Lines
