## Alaska Weight Restrictions

As a reminder to truckload shippers, primarily, we are approaching the Spring break-up season in Alaska. KFF service will end March 31 and [weight restrictions between Alaskan cities have started to come into effect](#). These restrictions occur each year, usually between March and June, and are dependent upon weather and ground conditions. Allowable gross weight can be reduced by up to 50% during this time and restrictions may be more severe this year due to damage caused from the earthquake. Please coordinate with your Alaska Marine Lines representative to ensure a plan is in place to meet your transportation needs.

Please contact your local service center if you have any questions or concerns about Alaska highway weight restrictions.

Sincerely,

Alaska Marine Lines
