**B. INTER-TERMINAL TRANSFER:**  
(Applies only when specifically referenced)

Inter-terminal transfer conditions and charges will be applied at the Carrier's discretion and as circumstances and cargo configuration require:

1. Rates, named herein and making reference hereto, on single pieces of over-dimensional (i.e., over 50' long or 9' wide or 9'6" high) or unusually heavy cargo (i.e., 50,000 pounds or more) destined to Outer-Island locations, will not include transfer between Carrier's Honolulu Terminal and connecting carrier's Honolulu terminal, nor the cost to shift a barge between terminals. If Carrier arranges such inter-terminal barge shift, the provisions of STB AKMR 100, series, Rule 300 apply.
2. Inter-terminal charges for over-dimensional loads will be assessed based on the following criteria:

<u>LENGTH OVER</u>	<u>BUT NOT OVER</u>	<u>SURCHARGE</u>

B. INTER-TERMINAL TRANSFER: (Concluded)  
(Applies only when specifically referenced)

Overwidth and overweight conditions are assessed separately and will be cumulative in cases where units meet both criteria.

Overweight loads will require permits and specialized trailer equipment to move between terminals. Charges will be assessed based on the following criteria:

<u>WEIGHT OVER</u>	<u>BUT NOT OVER</u>	<u>SURCHARGE</u>
45,000 lbs.	55,000 lbs.	\$ 232.00
55,000 lbs.	70,000 lbs.	\$ 462.00
70,000 lbs.		Special quote must be obtained

If a load is both overweight and over-dimension, then only the higher of 1) the combination of dimensional charges or 2) the overweight charge will apply. The overweight charge will not be cumulative in that case.

Single pieces or loads of cargo that are higher or heavier than certain upper limits, and which are consigned to Neighbor Islands beyond Oahu, may require on-carriage by use of specialized trailers that will be required to convert the loads into Roll-On / Roll-Off shipments for handling by the inter-island barge carrier. This applies only to units that are not wheeled, tracked, or on trailers and not capable of being driven or towed onto a barge. This typically applies to particularly heavy items or those exceeding 11'6" overall width. In those cases, it will be the responsibility of the shipper to make arrangements for, and to pay for the use of the trailers in transit. The Carrier will absorb up to \$350.00 of the cost to reposition the empty trailer equipment between islands within its published rates for the Neighbor Island shipment. All charges in excess of \$350.00 for such repositioning will be advanced to the shipper under the provisions of STB AKMR 100, series, Rule 300.

SECTION 1 RULES and REGULATIONS:	RULE NO.:
-------------------------------------	--------------

**PRIOR RESERVATION OF VESSEL SPACE:**

775

The following shipments of freight will only be accepted on prior reservation of vessel space, confirmed by Carrier or an authorized agent thereof:

- a. All container load shipments; or
- b. Shipments, irrespective of weight or cube, which are not compatible with the Carrier's equipment.

Reservation of vessel space is not a guarantee that the cargo will move on a specific sailing, although every effort will be made to do so. The carrier reserves the right, at all times, to load and to stow cargo in the most feasible and efficient method possible. All cargo, however, will move with reasonable dispatch, once it is made available to the Carrier. The Carrier, at all times, reserves the right to load cargo into containers, on or below deck, or in vessels at its discretion.

When shipments are forwarded prior to confirmed reservation of vessel space and through no fault of the Carrier, accrue demurrage or detention charges from the delivering carrier, such charges will be for the account of the shipper, consignee or beneficial owner of the freight.

**RETURNED, UNDELIVERED SHIPMENTS:**

860

Except as otherwise provided herein, any commodity rate published to apply over a named route, or routes, in one direction, effective on the date of return is applicable on an undelivered shipment returned over the same route, but in the opposite direction. However, if there is another rate specifically published to apply on the considered shipment being returned, over the same route, which results in a lower total charge, that rate shall apply in the absence of provisions to the contrary.
