

Working For Alaska's Future.

The Lynden Family of Companies 

Innovative Multi-Modal Transportation Solutions

*The undisputed leader
in shipping to,
from and
within Alaska.*

Working for Alaska's Future
This has been Lynden's goal since 1954. As the most flexible, innovative transportation company in North America, Lynden Transport has logged millions of miles in establishing its unrivaled supremacy in Alaska freight transportation.

The Alaska Environment
Alaska's challenging terrain makes incredible demands on people and equipment, but through Lynden's determination and capability, the challenges of weather, rough roads and remote destinations have been met and conquered to provide the dependability and shipping excellence expected of us.

Serving All of Alaska
Lynden has the most extensive terminal system of any transportation company serving the state. Every Alaska terminal has 24-hour availability, with contingency plans to meet any emergency.

Multi-Mode Transportation
Lynden gives you attractive options. Utilizing truck, ship, barge, ferry or aircraft in any combination, Lynden can offer you door-to-door speed, dependability and economy to any point in Alaska, whatever the size of your shipment.

A Full Spectrum of Equipment
This includes dry, insulated and temperature controlled trailers, and flatbeds in standard, step, stretch and lowboy configurations. The most extensive fleet of equipment in Alaska assures you of special care in handling and transferring cargo.

Complete heavy haul capability.

TL and LTL capability on motor-water-motor routes.

Hazardous Material Handling

Handling hazardous materials requires sophisticated capabilities and increased safety and environmental responsibilities that only the most experienced and best equipped companies can handle. Lynden's experience and proven expertise in this area should relieve you of all concern.

Reliable Trucking Schedules

This is a tradition with Lynden. With radio dispatched equipment throughout the system, effective expediting and dependable schedules, Lynden has the fastest, most consistent door-to-door service in the North Country and the only scheduled service between all Southeast and Central Alaska points.

An Aggressive LTL Program

Lynden provides fast check-in, a system-wide pick-up service and flexible receiving and delivery hours on any size package. We'll rush C.O.D.'s and Collects to any point served by road. By working LTL at night, your deliveries roll out at 8 a.m. the next morning.

Established Interline Capability

Interline is available with all responsible carriers in the Lower 48, and the ability to trace your shipments by connecting line freight bill number means that a single bill of lading will take your shipment all the way to its destination.

Heavy Haul Capabilities

Lynden is second to none. We wrote the book on heavy hauling to the Prudhoe Bay and Kenai oilfields, and with our extensive mining and construction experience, we continue to offer the best mix of specialized equipment and the dedication necessary to provide the best possible service.

Single Carrier Responsibility

Lynden gives you the added assurance of a single company in complete control right to the destination point. With Lynden having exclusive control from pickup to delivery, anywhere in Alaska, if a claims situation should arise, you have only one carrier to deal with.

Single carrier responsibility to all Alaska highway locations.

Intra-company capability to rural locations.

Safety, Fitness and Driver Training

These elements have contributed immensely to Lynden's "Fit for Work" philosophy and drivers' award-winning safety record. Having a healthy regard for one's own physical well-being and a conscientious responsibility toward others results in a confident and competent work force.

A Communications Network

Ours is the most comprehensive network in Alaska and is at the heart of Lynden's advanced tracing, expediting and rate quotation services. It is available on a "right now" basis at any terminal or sales office. Lynden has electronic imaging and is EDI capable and welcomes information trading partners. Internet tracing is available.

Competitive Pricing

This has been one of the mainstays of Lynden's success. Consolidation, master billing and dozens of other creative rate packages combine with Lynden's traditional efficiency, care and dependability to establish that first rate is the most important rate of all.

An Aggressive Reinvestment Program

Our investments continue to provide customers with better service through newer and more specialized equipment, efficient terminals and sophisticated communications services. Serving you to the best of our abilities has always served Lynden to the best of our expectations.

Most diverse and specialized fleet of equipment in Alaska.

A Companywide Commitment

Our commitment to contribute to the common good in Alaska has been a guiding factor in Lynden's short and long term goals. As Alaskans, we appreciate and help foster community spirit wherever we do business. Each community's growth and well being is part of the profit we seek.

Lynden's Quality Program

Lynden's quality is apparent to the discriminating observer. Lynden's initial challenge was to provide a quality service in the harshest of physical environments. We're taking this pioneering attitude of service to a new level of excellence through a quality program fulfilled by our most important resource... our people.

Complete oilfield capabilities.
