

We've Turned E-Commerce into Easy-Commerce.

The Lynden Family of Companies

Innovative Multi-Modal Transportation Solutions

Now you can ship by land, sea or air
right from your desktop at www.lynden.com

Enhanced website with E-commerce

Or should we say easy commerce, because that's how we define e-commerce. Our website makes it easy for our customers to conduct their business with innovative, advanced automation. From the new Lynden E-commerce Center you can request pickups, generate documents, trace shipments, view Delivery Receipts, download reports of your shipment activities — all without having to make a phone call, any time, any day. Whether your transportation needs are by land, sea or air, Lynden can meet those needs from the convenience of the Internet, while making your job easier and saving you time.

Documents are produced automatically with all the necessary information filled in for you. All you have to do is print them.

Even bar-coded shipping labels are
automatically generated for you.

Book your shipment on-line

Booking a shipment has never been easier. Once you are registered as a Lynden E-commerce Center customer, simply log in to our secure site, choose the mode, and select your shipping profile of frequently used information, including origins and destinations. Make the appropriate selections from drop-down lists, click the Submit button and you've begun the shipping process. You'll receive a confirmation and you can leave the rest to Lynden. It's that easy. And you never have to leave your desk. No more repetitive typing, busy signals, waiting on hold, or voice mail.

You can book your shipments quickly and easily from our website, which includes drop-down lists and an address book for your frequently used origins and destinations.

Automated documentation

The Lynden E-commerce Center will save you even more time by automating your documentation. Whether you need a Domestic Air Bill, International Shipper's Letter of Instruction, Export Declaration, Bill of Lading, Pickup Manifest, or Domestic and International Shipping Labels, the system remembers your shipping information, and it fills out the appropriate labels and documents for your type of shipment. Documentation has never been this quick and easy.

Keeping an eye on your shipments

The Lynden E-commerce Center keeps you in touch with your shipment, 24 hours a day, seven days a week. With our Advanced Trace system you can obtain detailed information, including the current progress of your shipments to their destinations, status reports, as well as images of signed Delivery Receipts.

Lynden's Easy Tracing can provide you with such advanced features as the ability to search for a range of shipments, obtain the latest status of your shipments, and view images of signed Delivery Receipts and Bills of Lading.

Information at your fingertips

Easy Reporting is the newest enhancement added to the Lynden suite of Easy Commerce services. As an Easy Commerce customer, you can now download shipment information into a report, making it easy for you to manage your transportation. You'll be able to tailor the data into just the style reports you need. Data from the reports are available in Excel, HTML or comma delimited file formats. Shipping data is combined to produce three different styles of reports.

- **Management Report** Displays the amount of freight your company has shipped with each Lynden company for the specified period of time. This report shows all bills. Weight and pieces are shown for master bills when there are multiple shipments.
- **Operations Report** Displays shipping and receiving information including all status information for shipments within the specified date range.
- **Accounting Report** Displays your accounts payable payment and cost information on shipments within a specified date range. The report includes only bills that have been invoiced.

You can now download shipment information into a report, tailor the data into just the style reports you need, making it easier to manage your transportation.

The Advantages of the Lynden E-Commerce Center

Saves You Time and Increases Productivity

Your shipping information is stored in a secure database, eliminating repetitive entry. Documents and labels are produced in a fraction of the time, with information automatically filled in. And the latest tracking information is just a click away.

Easy to Use

The Lynden website presents a user-friendly interface. The site is menu-driven and we are always available to help. Lynden offers training materials making it easy for you to get up and running quickly.

Customized Reporting

Your shipping information can easily become a report, allowing data manipulation based on your needs.

Your Information is Secure

Lynden will provide you with a password to access our secure site. None of your shipping information or preferences are accessible to others.

Available When You Need It

Your company has multi-user access to information and business transactions, 24 hours a day, seven days a week.
