Update: Late Arrival - Voyage S1451

Dear Valued Customer,

This is an update to yesterday's message regarding the mechanical malfunction that is preventing Seattle's Spokane Street bridge from opening to allow marine traffic to transit the waterway.

Repairs to the bridge continue. Southeast Alaska Voyage S1451 was unable to sail last night as expected. Current estimates indicate that the barge will be able to depart Friday and arrive into Southeast ports delayed by about 48 hours. As of now, our intention is to sail the S1452 Friday evening as regularly scheduled. We will advise you of any developments with an additional notice.

Please contact your sales representative or our customer service department with specific questions or concerns.

Sincerely,

AML
