<p><u>VOLUME COMMITMENT:</u></p> <p>The rates in this tariff are for high volume construction projects. The minimum volume commitment to qualify for this tariff is either 500 tons or 20 FEU (forty foot equivalent units) shipped in a consecutive six month period. In order to qualify for the rates in this tariff Shipper must first identify the named construction project and submit a written request for volume project rates along with a detailed list of shipments and designate the shipping period that will meet the time/volume requirement. When a qualifying project list and request is received, Carrier will verify that the projected volume will satisfy the criteria for project rates and send written notice to the Shipper that the volume rates will be made available for the project. All shipments must be clearly marked with the project name and project booking number on the inbound bill of lading or they will be rated under standard tariff rates. If shipments that were not properly marked for a designated project are later reconsigned to the project and rebilled at the project rates Shipper agrees to pay a reconsignment fee as detailed in STB AKMR 100A.</p> <p>If Shipper does not tender the minimum volume requirement during the designated six month period Carrier will rebill and Shipper agrees to pay for all shipments that were previously rated under the volume tariff and any subsequent shipments at standard tariff rates.</p> <p>Rates are subject to rate increases when published in 300 Series tariffs and are not eligible for credit card payment.</p>
