

Alaska West Express of Tacoma, Washington, stands ready to serve your transportation and freight management needs. As the leading trucking company specializing in project cargo, long- and heavy-haul, and intermodal deliveries in the greater U.S. and Canadian/Pacific Northwest regions, we have the specialized equipment and expert know-how to fulfill your shipping challenges.

Our heavy haul trucking solutions have a reputation in Tacoma and beyond for being reliable and innovative. Our drivers are highly trained in safety and efficiency, with consistent on-time service and a commitment to meeting strict requirements. Alaska West Express performs route surveys to eliminate delays and determine the safest, most efficient way to transport your oversized loads. We also maintain oversized and over-dimensional permits, allowing our drivers to deliver to places others will not.

As your strategic partner from the word “go,” Alaska West Express is a comprehensive transportation solution for all your heavy haul needs.

## Experience

- Since 1978, customers have depended on Alaska West Express to handle, transport and manage bulk products and loads up to 75 tons. When you book a shipment with us, you can rely on our decades of experience.
- Our specialties include heavy machinery, wind turbines, large tubing spools, mining equipment, gravel excavating machinery, oversized tanks, camp modules, oilfield equipment, generators, beams and equipment.
- All drivers have TWIC clearance and passports allowing for quick, efficient turnaround at ports and borders. Our Tacoma office is located within the Port of Tacoma boundary allowing for seamless transfer of cargo for air or marine projects.
- Our reliable performance has given us the opportunity to be a partner carrier for the Department of Defense, General Services Administration and FEMA.

## Transportation Options

- Dedicated direct full truck loads (FTL).
- Less than or partial truck loads (LTL).
- Professional solo drivers.
- Hazmat drivers.
- Over-dimensional (OD) drivers.
- Super loads.

## Features

- Partner carrier support.
- A full spectrum of standard and specialized equipment.
- FTL and LTL service for general commodities and construction material.
- Heavy haul capability.
- Comprehensive insurance coverage over D.O.T requirements.
- Full compliance with current D.O.T safety standards.

## Equipment

With our wide selection of trailers and equipment you can count on us for dependable service to the construction and manufacturing industries. Our calling card is the ability to manage projects requiring multiple modes of transport to any destination.

### Trailer and equipment options include:

- 40' to 53' Standard flatbeds.
- 53' Step decks.
- 53' Stretch flat deck.
- 53' Stretch step deck.
- Curtain vans.
- Double drop Stretch trailers.
- 40 to 70-ton RGN/Lowboys.

## Safety

- Our team is trained to handle hazardous and non-hazardous chemicals and petroleum products with in-house certification from our own Lynden Training Center, which specializes in hazardous materials transportation and response.
- Our fleet is compliant with California emissions standards, and we are recognized as an EPA SmartWay certified carrier.
- We provide high-value insurance coverage and know the weight restrictions in each state. We obtain the necessary permits to transport your oversized cargo where it needs to go.
- We are proud to provide our customers with the safest and most efficient transportation solutions.

An Alaska West Express representative would be happy to work with you on your next project or shipment within, from or to the continental U.S. Please give us a call in Tacoma or visit our website at [lynden.com/awe](https://www.lynden.com/awe).
