

## Tank Cleaning and Heating Services

Alaska West Express operates a 6,400 sq. ft. tank cleaning facility in Fairbanks, providing certified cleaning for everything from drums to railcars. Since 1998, we've focused on delivering safe, clean, and dry tanks with industry-leading expertise. In 2012, we expanded our services with an advanced product-heating system.

### Our Services

- Interior and exterior cleaning
- Parts replacement
- Hose and pump cleaning
- Product heating (glycol or steam)
- Testing and recertification

### Interior Cleaning

Our engineered wash process meets or exceeds industry standards and can be customized to your requirements—from simple steam-outs to full detergent and caustic washes. The cleaning process is tailored to the prior product and container type, with every service including internal quality controls and a certified clean certificate.
