

Freight Forwarding: One Company, Multiple Solutions

Transportation and Logistics

Lynden Healthcare has over 30 years of experience delivering superior transportation and logistics services, across North America and around the world, through a unique mixture of asset and non-asset services and divisions. When it comes to shipping, you can trust our logistics experts to handle it all. Lynden Healthcare is your one-stop resource, with a vast array of services offering complete control and visibility of your supply chain from start to finish.

The Lynden Advantage

- Consolidated solutions under one roof
- One point of contact for all your logistics needs
- Customized, flexible solutions
- Market expertise: retail, commercial goods, energy, and pharmaceuticals
- Door-to-door temperature control
- In-house customer service team
- Dangerous goods and controlled substances
- White glove delivery service

Freight Forwarding Solutions

Lynden Healthcare offers complete transportation solutions and can track and manage every aspect of final delivery. Our Dynamic Routing service employs multiple modes to produce flexible transportation options that accommodate variable transit requirements. From less-than-truckload to full-truckload, ocean or air cargo service, charters or consolidation programs, we can move customers' shipments around the world and provide full visibility every step of the way.

Transportation Management Services
