

LYNDEN **AIR CARGO**

Providing Scheduled and Charter Air Cargo Service

Lynden Air Cargo

Experienced people committed to the most reliable air cargo service in the world.

Reliable Air Cargo Service

Lynden Air Cargo has the equipment and the expertise to move your cargo to remote locations throughout Alaska, Canada and around the world. Our regularly scheduled service transports everything from groceries to automobiles within Alaska, and our charter services transport oversized cargo worldwide.

Lynden Air Cargo's fleet of L-382 Hercules can carry your supplies to the most challenging locations using one of the most versatile aircraft made for operating on unimproved airstrips.

Commitment to Service

At Lynden Air Cargo, you'll find experienced people committed to providing the most reliable air cargo service in the world. You can count on our reputation for getting the job done – no matter what. Our pilots have thousands of hours of flight experience and our support crews are dedicated to service and safety.

Scheduled Routes

Even with oversized loads, you can use of our cost-effective scheduled service. Our aircraft fly regularly to several Alaska locations, giving you year-round oversized capabilities.

Lynden Air Cargo's schedule can meet any transportation challenge. The intrastate air freighter service connects Anchorage with many points in the Alaskan Bush while almost any village or city in the state can be served with flagstops on the scheduled flights or connections with Bush carriers.

Flagstop Service

We offer flagstop service to communities including, but not limited to:

- Deadhorse
- Kodiak
- Iliamna
- Emmonak
- St. Paul
- St. George
- McGrath
- Galena
- Cold Bay
- Adak
- Cordova
- Yakutat
- Dutch Harbor/
Unalaska

Charter Services

With a fleet of Hercules aircraft available to charter, Lynden Air Cargo gives you the flexibility you need. We have both the equipment and the expertise to move oversize loads to remote locations, on unimproved and even ice runways – including small Bush communities in Alaska, Europe, Canada, and other destinations around the world.

The aircraft has unique capabilities that will allow us to meet a wide variety of charter requirements. We can accommodate your less-than-charter-sized load at substantial cost savings.

Seafood Guidelines

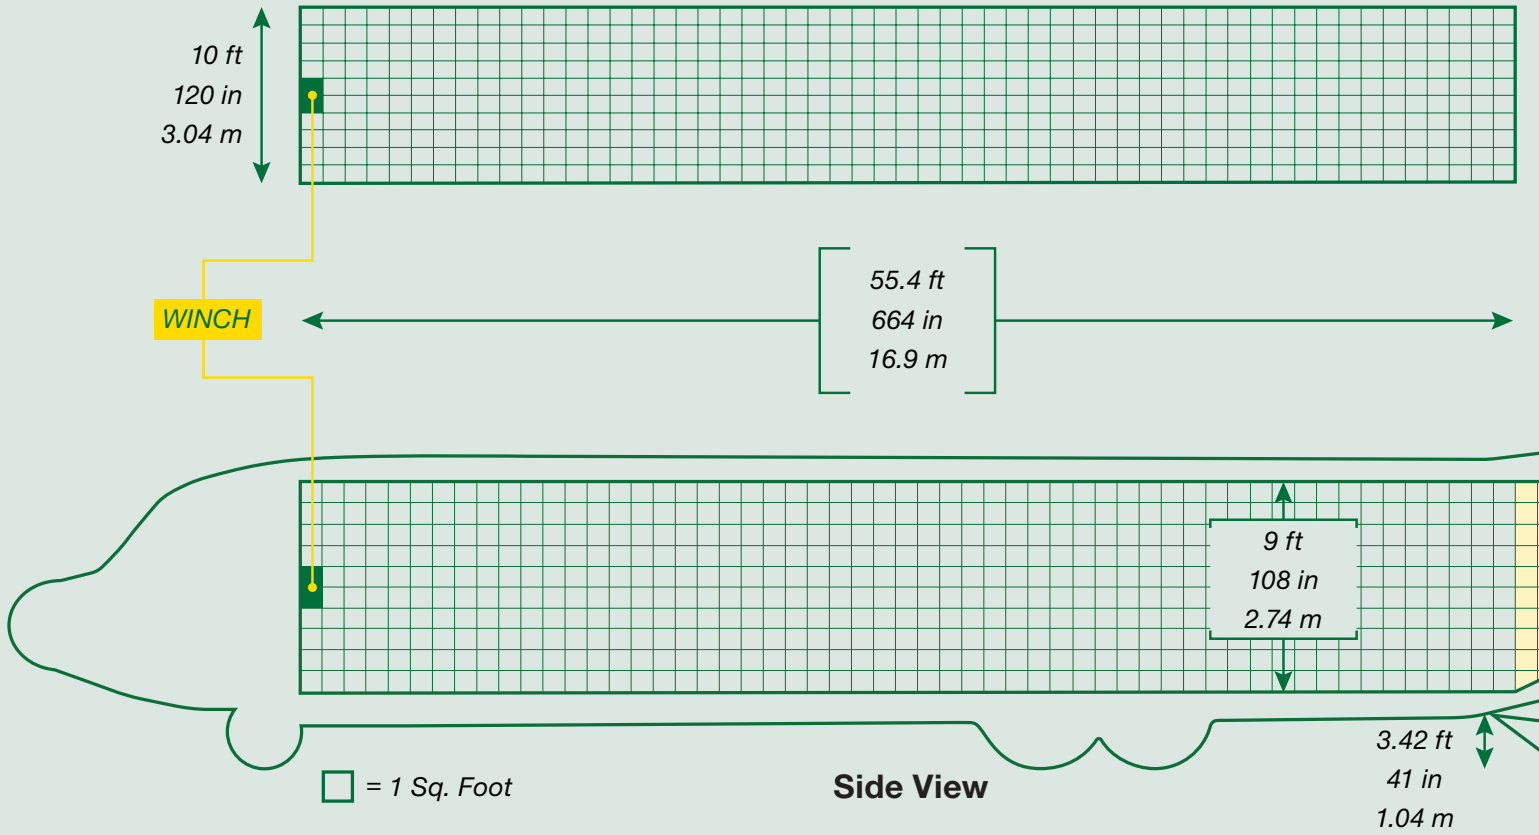

You can trust Lynden for the fresh and safe delivery of your seafood. We offer seafood shipping – for bulk shipments or on an individual basis – on both our charter and individual flights, including flag stops.

Hazardous Waste and Dangerous Goods Shipping

Lynden Air Cargo is an EPA-certified waste transporter, capable of transporting all types of hazardous waste. We're experienced in the shipping hazardous materials including: flammable materials, dry ice, propane, contaminated soils, oily waste, and PCBs. Lynden is also certified to transport and deliver fuel.

Rear View Cargo Profile

The L-382 Hercules

This L-382 Hercules is one of the world's most versatile and capable aircraft for hauling large loads to and from remote areas. It's ideal for transporting cargo to Bush communities without road access.

In an environmental emergency such as an oil spill, the Hercules can be called on to provide immediate response, including oil dispersant spraying operations.

Hercules Capabilities

- Payloads of up to 48,000 pounds
- Straight-in loading capabilities to the maximum length of the cabin
- Flies at altitudes as low as 100 feet (e.g., for emergency oil dispersant spraying)
- Can land on short, packed-earth, gravel, or ice runways
- Rear-cargo ramp adjustable to any position
- Truck bed height main floor
- Transporting oversized cargo and heavy machinery
- Integral winch and adjustable roller system for fast pallet and container loading
- Self contained auxiliary power system

*Ramp door can support
4,000 lbs when closed*

Operational Capabilities

- Simplified loading operations for quick turnarounds
- Direct loading from ground or truck
- Drive-on, drive-off vehicle loading
- Minimal ground support equipment
- Higher stack efficiency with fullheight, rectangular-shaped loads
- Efficient operation from unpaved fields in remote areas
- Safe operation from runways with low weight bearing capability
- Short field takeoff and landing performance

Cargo Accommodations

- 5 standard 88" x 125" (2.24m x 3.17m) pallets or containers, plus belly compartments and a ramp container
- Mixes of 10, 20, 30 and 40 ft long (3.05 m, 6.10 m, 9.14 m, and 12.19 m) 8 ft x 8 ft (2.44 m x 2.44 m) cross section intermodal containers up to 54 ft long (16.5 m)
- Oversize shipments up to 54 ft long, 10 ft wide and 9 ft high (16.5 m x 3.05 m x 2.74 m)
- Up to 6,057 cu ft (171.52 cu m) cargo volume

Worldwide Multi-Modal Capabilities

Utilizing trucks, ships, barge, ferry or aircraft in any combination, Lynden allows you to balance speed and cost when shipping to and from different locations. Lynden's Dynamic Routing makes the most of unexpected changes in the supply chain by allowing you to customize your mode of transportation to speed up or slow down your deliveries. You only pay for the speed you need. Multiple shipments can move at different speeds so they arrive just when they are needed to optimize your budget. We can even adjust the mode of transportation while your shipment is en route, and our innovative Predictive Delivery program keeps you in touch while your freight is in transit.

The combined capabilities of the Lynden companies includes:

- Truckload and less-than-truckload transportation
- Scheduled and charter barges
- Intermodal bulk chemical hauls
- Scheduled and chartered air freighters
- Domestic and international air forwarding
- International ocean forwarding
- Custom brokerage
- Remote site construction
- Sanitary bulk commodities hauling
- Multi-modal logistics
